[redacted] and the update of the 1973 Physical Security Standards are ranked as priority items. The CSG requirements to define and coordinate the complex issues being addressed by the Computer Security Subcommittee, the demands for attention to physical security aspects of the proposed APEX Compartmentation Control System and in-house staff work, items of equal importance, just cannot be attended to with the best juggling of the CSG flexible but limited staff.

4. With the assistance of [redacted] would be freed to attend to issues associated with Computer Security and provide needed time to the issue of U. S. Security in the USSR.

5. It is proposed that [redacted] contract be extended 180 days or for that portion of that time allowable in this Fiscal Year to be consistent with regulations on contracting of annuitants and to carry over into FY 1981 as required so as to allow his use for the full 180 days. Details to be worked out by C/CSG and Personnel Branch/A&TD/OS.
